

High-Value Gifts Process 1: Discovering Your High-Value Gifts

Close your eyes, tune into your heart and travel back along the road of your life.

Remember the superpowers you possessed as a child.

Do you still use those gifts?

What opportunities have they brought you?

What prosperity have they brought you?

What wealth have they brought you? *(Note: this wealth may not only be money, but also experiences, gifts, relationships, or anything else that you value.)*

Write down the gifts that came up for you:

Which Archetype Holds This Gift:

How can I use these gifts more often in my life right now?
