## Tools for Navigating Change

Remember you have a choice, and in the end, it's all good!

### Tools:

- Navigate by your purpose
- Practice detachment
- Be open to change
- Keep your sea legs on
- Go with the path of least resistance
- Watch where the road signs are pointing
- Be willing to let go and let God
- Trust yourself
- Presence
- Conscious Choice

1. You must know your purpose and how it is best expressed in the houses/areas of life that the nodes of the Moon are in. Make your choices by weighing your potential decisions against your purpose to see if it is a good choice for you or it will over complicate your life and pull you off your path.
2. For when Rahu/Magician is in your chart in the current Eclipse pattern, you must tap into your heart to know what material wealth your soul is wanting you to grow/acquire and what shiny objects may pull you off your path.
3. For where Ketu/Mystic is in your chart in the current Eclipse pattern, you must tap into your heart to know what spiritual wealth your soul is wanting for you and what you are being called to let go of to live closer to the divine. You will also need to know what you are most afraid to let go of and liberate yourself by clearing those limiting beliefs.
